

Extras cover

Essential Extras is our mid level extras cover. It gives you benefits on an extensive range of treatments like dental, optical, physiotherapy and chiropractic; and other health care services that aren't always covered by Medicare. With Essential Extras you receive rebates for each service up to your available limits. Benefits listed below are examples only and not a complete list.

Extra value from your membership

Rewarding Limits

Once you have held your extras cover with us for one year, we will automatically increase your annual limits for dental (excluding orthodontics) and therapies by \$50 per year, up to a maximum of \$250. After five years of membership, your limits will increase to \$1,150 per person per Membership Year. We honour this loyalty limit for as long as you continuously hold your Extras cover.

Rewarding limits do not apply to sub-limits.

If you've had a busy claiming year; visits to the dentist, podiatrist, regular massages, you may be curious about what benefits you have used and what you have left to claim. You can always check your membership online with our Mobile App, available for Apple iOS and Android. It's a great way to keep track of all your claims and view benefit limits from the comfort of your own home. You can also process your own claims online for some services and do quotes. To utilise our Mobile App you just need to register and log on. Of course, not everyone is tech savvy, so we are here on the phones to assist you any way that we can.
